[continued on page 2]

RS60 Liberty Rail with Black Baluster Infill Sample Order

Baluster Count Logic for Above Stair Items:

- 1 Section @ 6' with a maximum of 14 balusters per section = 14 balusters @ 32" H for 36" Installed Stair Rail Height
- 4 Sections @ 8' with a maximum of 19 balusters per section = 76 balusters @ 32" H for 36" Installed Stair Rail Height
- **Total of 90 balusters @ 32" H Required**

Note: Baluster counts will vary based on actual installed length of rails vs. full lengths of rail. For exact baluster counts, quantities must be calculated based off finished openings of the railing on site.

Quick Quote Example
