Paint & Cleaning Guidelines

Dark Paint Caution

If you choose to paint your INTEX Millwork Solutions product, INTEX recommends the use of premium grade acrylic paints with solar reflective pigment. Preferably paints designed for use with PVC products. Please contact your local paint dealer for professional assistance.

Due to the inherent expansion and contraction characteristics of PVC, INTEX PVC millwork products should only be painted colors with an LVR (light reflective value) greater than 55. Use of darker colors may cause damage due to excessive expansion/contraction and will void the product warranty.

For painting darker colors, visit AquaSurTech's website for more information on their products

Cleaning Instructions for INTEX Millwork Solutions Products

To keep your INTEX products looking new, they should be cleaned at least 2 times per year with soap and water to prevent dirt buildup and possible staining. Any exposed stainless steel or powder coated hardware such as assembly hardware, hinges and brackets, must be washed a minimum of two times per year to minimize the effects of corrosion over time.

For periodic wipe downs or more stubborn stains or mold/mildew, INTEX recommends the following cleaning products:

409 Glass and Surface Cleaner®

Miracle Mist (Stains, mold, mildew)

Fantastik Oxy Power Multi-Purpose Cleaner® (Stains, mold, mildew)

Clorox Clean-Up® (Stains, mold, mildew)

WARRANTY

DeckMAX®

Fantastik All-Purpose®

Spic & Span Cinch®

Windex®

The cleaning solution should be applied and immediately wiped dry. As with any cleaning material, the cleaning solution should not be left to stand on the components for an extended period of time.

What to Avoid

Harsh cleaners with glycol ethers or ethanol type solvents and/or isopropyl alcohol are not recommended. Examples of these harmful cleaners are Goof Off®, Wal-Mart “Great Value All Purpose Cleaner®” (glycol ether), 409 General Purpose® (2- Butoxyethanol) and Greased Lightning® (glycol ether), citrus cleaners, abrasive cleaners, and solvents such as acetone, paint remover and lacquer.
