Fence & Landscape Millwork
Elements of Distinction
When Only The Best Will Do

Low Maintenance
INTEX Millwork’s products are easier to maintain than traditional wood millwork – they don’t warp, rot, or degrade, making them truly timeless solutions.

Exceptional Expertise
Our INTEX experts have spent decades constructing intricately-engineered exterior elements that will take any home to the next level.

Unparalleled Service
We work with architects, builders, dealers, and homeowners to ensure every expectation is met, every time. Our team is committed to getting it right, down to the very last detail.

The INTEX Difference
By partnering with INTEX Millwork, architects, designers and contractors can deliver on each and every project, from the very basic to the most complex.

Dedicated to bringing that old-world touch to newly constructed custom homes, maintaining the beauty of historical remodels with the latest innovations in materials and techniques, and just about everything in between, INTEX Millwork has a solution that effortlessly meets the exterior needs of architects, designers, and contractors, every single time.

A family owned company, INTEX Millwork is a loyal and attentive business partner who fully understands the building cycle and supports the use of their products at every stage of the process, from a customer’s first inquiry through the installation.

The finishing touch that stands the test of time.

**Easy Installation Across All Systems!**

The Estate and Cottage Series both boasts prominent profile features with a simple drop-together installation with minimal on-site tool requirements and hidden fasteners.

**Estate System Overview**

**STEP 1:** Install posts.

**STEP 2:** Set rails in place using pre-routed post mortises.

**STEP 3:** Snap pickets into place.

**STEP 4:** Secure rails in place.

---

**FENCE SERIES**

Represents INTEX’s best in style, design, and ease of installation in its fence product line offering.

- 100% Cellular PVC
- Available in a Variety of Styles and Sizes
- Reinforced Aluminum Core for Strength & Corrosion Resistance
- Gates Structurally Reinforced with Welded Frame
- Aesthetically Pleasing Shadow Lines
- Rackable or Stepped for Grade Adjustment
- Low Maintenance and Easy to Clean
- Does Not Require Paint, but Can Be Painted (LRV Greater Than 55)
- For Pricing Information Visit intexmillwork.com
**Estate Fence Dimensions**

**Standard Lengths** or runs of fence available are 4’, 6’, and 8’. This dimension is specified from post centers, so the exposed spans are 6” less.

**Standard Heights** of fence available are 3’, 3-1/2’, 4’, and 5’. This dimension is from the ground to the top of the picket and is designed at 1” taller than specified. This allows the fence to be installed 1” lower and still reach at least the specified height.

**Standard Styles** of fence are available in any combination of span and height. Custom patterns can be achieved by installing pickets of varying length.

* INTEX Millwork Solutions Custom Pergola option is available for projects that need to go beyond the limits of the Premium Pergola System.

Exceptional Strength and Durability
INTEX cellular PVC pergola components are sleeved over structural aluminum internal reinforcements to provide strength and durability. Additionally, INTEX has designed a complete bracket system for assembling components together. Bracket holes align the screws with the internal aluminum members, assuring a secure installation.

- 9 Tail Styles

### Common Questions

**What are the benefits of Cellular PVC?**
INTEX’s Cellular PVC millwork offers durability that far surpasses wood or other materials. While wood can be affected by moisture, changing temperatures, UV light and insects, INTEX’s Cellular PVC is just the opposite. Our Cellular PVC is impenetrable to moisture and won’t rot, swell or split like wood. INTEX’s Cellular PVC is bug proof, UV resistant and impervious to salt. Unlike Vinyl, INTEX’s Cellular PVC can be milled, painted, and installed like natural lumber. INTEX’s Cellular PVC also does not squeak, shine, yellow, fade, or chalk like vinyl.

**Can INTEX products be painted?**
Yes, due to the inherent expansion and contraction characteristics of PVC, INTEX’s PVC millwork products should only be painted colors with an LRV (light reflective value) greater than 55.

**How do you clean Cellular PVC?**
Cleaning all INTEX products are easy and fast with most major household cleaners. There are many cleaners on the market and the glass cleaners seem to be the best candidate for keeping the finish looking great. The cleaning solution should be applied and immediately wiped dry. Harsh cleaners with glycol ethers or ethanol type solvents and/or isopropyl alcohol are not recommended.

**How long do INTEX products last?**
INTEX products are designed to last in the harshest of environments. For this reason, all INTEX Millwork Solutions products carry a lifetime limited warranty.

**Where can I purchase INTEX products?**
Go to www.intexmillwork.com to find an authorized dealer near you.

**Are technical drawings and documentation of INTEX products available?**
Technical drawings and product documentation are available on www.intexmillwork.com. If you need more information, please call our office at (856) 293-4100.

**About the Front Cover**
Thank you to Atlantic Fence Supply [MA] for the front cover image!
Welcome to INTEX Millwork Solutions, where we are leveraging world-class engineering and design to develop inventive and beautiful architectural solutions for all of your projects, every time.

As one of the first companies to offer aluminum-reinforced, cellular PVC millwork, INTEX Millwork Solutions enables architects, builders, and contractors to anticipate and deliver on their customers’ vision for their homes, no matter how grand.

If you'd like to learn more about INTEX Millwork Solutions, visit intexmillwork.com or give us a call. We'll be happy to answer your questions, assist you in selecting options, or work with you in creating a custom design.
